

Self declaration form

Declaration of chemical substances according to IOS-MAT-0010 (v15) for solid wood, wood-based materials, and wood-like natural materials

Declaration format issue date: 2019-12-20

Declaration of chemical substances according to *Chemical compounds and substances* (IOS-MAT-0010 v15) for solid wood, wood-based materials, and wood-like natural materials

This form – or an equivalent form with the same information – shall be used to certify compliance with requirements according to specification *IOS-MAT-0010 (AA-10911-15)*. This form shall be signed by the final chemical processor of the material (for instance: the board producer in the case of PB, OSB, fibreboard). In the case of solid wood (rubber wood and tropical fruit tree wood), the form should be signed by the supplier of the wooden raw material¹. The producer (final chemical processor) can be either the IKEA supplier or a sub-supplier (or sub-sub-supplier, etc.). Definitions are as in *IOS-MAT-0010*.

Note: The applicator of coatings or coverings is not considered as “final chemical processor”, as the coating/covering is subject to separate IKEA chemical requirements.

Supporting documents, verifying fulfillment of the requirements, can be listed in *Table 3*, such as:

- test reports,
- self declarations, certificates or safety data sheets from sub-suppliers of raw materials and chemicals used to make solid wood, wood-based materials or wood-like natural materials.
- Also; if there are any documents from IKEA giving approval for use of certain substances (biocides added in order to impart properties to the final product, fragrances or wood preservatives) they shall be listed. IKEA suppliers are responsible to communicate IKEA approval statements to their sub-suppliers.

This is to certify that we have read and understood IKEA specification *IOS-MAT-0010*, and that all materials listed in *Table 1* and delivered from us after the signing date below comply with IKEA requirements according to this specification.

Even if this form is signed by a sub-supplier (or sub-sub-supplier, etc.) as a compliance statement to the IKEA supplier, *IOS-MAT-0010* as part of the purchasing agreement between IKEA and IKEA supplier always applies, and the IKEA supplier has the final responsibility towards IKEA for compliance with IKEA requirement.

Table 1: List of wood, wood-based, or natural materials

Material identification (trade name/trade code etc.)	Material description ²	For particleboard fibreboard:	
		Contains post-consumer recycled material (write: Yes or No)	If post-consumer recycled material is used: state range of content (in %) of the post-consumer recycled material
MDF FSC %100 5,7mm-40mm	MDF FSC %100 5,7mm-40mm	no	

¹ Self declaration is not required for solid wood (including edge-glued panel), veneer, plywood and layer-glued materials, except SD is required for rubber wood and tropical fruit tree wood.

² E.g., type of board material, species for solid wood, type of plant for wood-like natural materials.

Self declaration form

Declaration of chemical substances according to IOS-MAT-0010 (v15)
for solid wood, wood-based materials, and wood-like natural
materials

Declaration format issue date: 2019-12-20

Table 2. Confirmation of fulfilment of chemical requirements, IOS-MAT-0010 (sections 1 and 2.1)

Requirements See <i>IOS-MAT-0010</i> for specific information on each requirement	Type of wood, wood-based or natural material	Fulfilment		Not applicable ³
		Fulfilment	Fulfilment	
Cadmium and its compounds	All	<input checked="" type="checkbox"/>		
CMR substances (cat. 1A or 1B) and SVHC ⁴	All	<input checked="" type="checkbox"/>		
Hazardous waste	Material that contains any pro- portion of recycled material	<input type="checkbox"/>		<input checked="" type="checkbox"/>
Lead and its compounds	All	<input checked="" type="checkbox"/>		
			Fulfilment directly (no approval needed)	Fulfilment (used according to conditions in IKEA approval)
Biocides of all kinds, added in order to impart properties to the final product	All	<input checked="" type="checkbox"/>		<input type="checkbox"/>
Fragrances	All	<input checked="" type="checkbox"/>		<input type="checkbox"/>
			Fulfilment	Not applicable³
Lindane	All	<input checked="" type="checkbox"/>		
Organotin compounds	All	<input checked="" type="checkbox"/>		
Pentachlorophenol (PCP) including salts and esters of PCP	All	<input checked="" type="checkbox"/>		
Quality-assurance programme for recycled material	Particleboard and wet- and dry- process fibreboard that contain any post-consumer recycled material	<input type="checkbox"/>		<input checked="" type="checkbox"/>
			Origin of wood or wood-based material	
	Type of wood, wood-based or natural material	From areas with fall-out less than 1 Curie per km²	From areas with fall-out greater than 1 Curie per km²	Not applicable³
Radioactivity	Wood and wood- based materials	<input checked="" type="checkbox"/>	<input type="checkbox"/> ⁵	<input type="checkbox"/>
Requirements See <i>IOS-MAT-0010</i> for specific information on each requirement	Type of wood, wood- based or natural material	Fulfilment directly (no approval needed)	Fulfilment (used according to conditions in IKEA approval)	Not applicable³
Wood preservatives	Rubberwood and fruit-tree wood	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

³ "Not applicable" shall only be ticked if the material being declared is not in the scope of the requirement according to *IOS-MAT-0010*

⁴ When referring to chemical substances that are included in lists established by government authorities, this SD applies to chemical substances that are included in such lists at the time of signing.

⁵ TR needed.
